

# Elite Goal Group

## What is a Goal Group?

A group of six to ten like-minded individuals working together to help each other achieve! People from any walk of life who are comfortable sharing their goals with others and also willing to contribute to the betterment of the group.

## Why Join?

If you are a goal-oriented person, you already understand the power of having goals.

The group concept takes this to a new level.

The synergy created when coming together with other goal setters helps you to stretch beyond what you will do on your own.

The group provides you with a resource that you can share with and receive valuable feedback and support from.

If you run into challenges, you will be encouraged by other members of the group.

As you progress throughout the year you will be excited to meet with the group and provide updates.

You will benefit from the accountability created by the group dynamics.

To expand your mind and learn new ways to advance personally and professionally.

## Who Qualifies?

For your comfort this is the recommended guideline for qualification:

Business owners, Sale representatives, agents etc. or Individuals working towards business or entrepreneurial goals.

The intention is not to shut out or offend people by suggesting this criteria but to ensure that you feel you are able to participate and contribute to the other members of the group without feeling intimidated.

Participants will attend a Goal Setting Workshop in December and a total of six meetings will be scheduled in 2008.

The fee for the Elite Goal Group is \$497.00.
